

### **Children Murdered by Parent Supported Behavior Correction Programs.**

This is a short and growing list of those who have died at the hands of those paid to abuse children into behaving the way a submissive, brainwashed, mindless American should. This list will be continually added to as we find more victims in our research. We have attempted to list them by year however, because nothing is done to bring justice to these children's murderers and avenge their innocence, the names are difficult to find.

Rest in Peace sweet ones. This world did not try to understand you or help you. We wish for you to reach a better one and have a better life than the one given and taken here.
