Your site has a fund-raising fraud, hopefully unwitting up till now. You have several noble causes & one major fraudulent one. As all major EU governments know - and you can see yourself if you read the report I wrote for Europe's intel agencies, confirmed as correct (link below) -

Mr 'Edward Snowden' is a US agent & hoaxer, tied to neo-con warmongers Dick Cheney & Zbig Brzezinski, who never 'stole' any documents, he is run by the US intel agencies for multiple criminal purposes, including international blackmail, & the likely silencing & killing of real dissidents who are duped into contacting the UK Guardian, Glenn Greenwald etc ... there was little 'new' in Snowden revelations aside from media pumping by US intel bribed-news outlets ... Greenwald has worked for 3 CIA-tied billionaires in a row, did you know that?

When you trace Snowden's 'network' of US-gov-tied goons you will see there is nothing legitimate about him .. and you are engaged in fund-raising fraud by soliciting for him

You should know the Guardian has long taken bribes to publish fake 'news' for US intel agencies, that is why there is so much rubbish in the Guardian, lies about Ukraine Syria etc, & why the Guardian deletes so many honest commenter's ... but of course they promoted US-gov-sponsored 'Snowden'

Eddie Snowden is actually helping to harm your more real victims, because Snowden helps hide truth about US judges who seek to put UK victims on trial ... As a loyal intel agent, Snowden has zero interest in the proven corruption of US judges who would 'put him on trial' which in his case would be fake

President Putin publicly hints Snowden is a US agent, but few pick up on it ... Putin plays along as part of his complex negotiating game with the US regime ... My Russian friends laugh at how you are duped by him & are helping sell this fraud

By all means read the report linked below - which stopped Snowden getting asylum in Switzerland, as the Swiss gov realized he is a fraud after I showed them - and discuss it with Snowden himself (you can reach him via Moscow's Argument law firm)

By the way your board member 'Daniel Ellsberg' was a similar 'limited hang out' fraud 40 years ago, selling the hoax official JFK murder story just like Snowden sells the US gov '9-11' hoax... Ellsberg even sold by the same US gov NY Times, it is an old game for the Yanks

The USA loves how you are duped enough to fraudulently raise funds for a plain-as-day intel hoax such as fast Eddie

Now that you have access to this report which you can confirm to your heart's content, you are engaged in criminal fraud against the UK public, if you continue to solicit funds for 'Snowden'
